

SOUTH CENTRAL COAST DISTRICT

County of Santa Barbara

1. Number of segments - 0
2. Summary status:
 - a. The Land Use Plan (LUP) was first certified with suggested modifications on December 12, 1980, and the zoning (Implementation Program) portion on June 17, 1982. Following three more LUP resubmittals, and one zoning portion resubmittal, both the LUP and zoning were effectively certified on August 11, 1982, with the County assuming permit-issuing authority on September 1, 1982.

An area of deferred certification (ADC) in the Summerland area (Bougerie/Glenn/Roberts properties) was created on August 11, 1982, and covered 64 acres. The main issues were urban-rural boundary, density of development, appropriate land uses, and provision of water and sewer. It was resolved by the Commission's certification of an LCP for this area on October 14, 1992. The LCP for this area was effectively certified by the Commission on February 16, 1993, also the date on which the County assumed permit-issuing authority for this area.

The Commission effectively certified the zoning ordinances for the community of Isla Vista on June 13, 1989, which also resolved issues of allowable zoning density in an area of deferred certification in Isla Vista. On March 17, 1993, the Commission certified an amendment to the original LCP affecting land use and zoning designations on miscellaneous parcels and portions of parcels throughout the coastal zone that were inadvertently excluded in the original certification of the LCP.

- b. Comprehensive Update. The Commission awarded the county a \$23, 972 LCP planning grant in 1999 to update a portion of the LCP for the Ellwood Shores area. The approved works program's intent was to respond to Coastal Commission 1998 findings and suggested modifications, adopted in its action on an LCP amendment request, regarding issues such as restricting the types of trails in environmentally sensitive habitats, and addressing additional issues regarding the land use and natural resource elements, and site specific development standards.
3. Areas of Deferred Certification:
 - a. Haskell's Beach ADC. This ADC was created on August 11, 1982, and includes about 73 acres. The main issues are public access, environmentally sensitive habitat, shoreline erosion, density, urban-rural boundary, and water service. A 1985 coastal permit approved a major 400-room hotel complex on a portion of this area. The County resubmitted an LCP for this ADC but then withdrew it prior to Commission action. This ADC remains unresolved.

- b. Channel Islands ADC. This ADC was created on August 11, 1982, and includes the four islands of San Miguel, Santa Rosa, Santa Cruz and Santa Barbara. Issues are oil, public access and rare and endangered species. All are unresolved at this time.

The Oxnard Shores ADC was created on May 18, 1982. The major issues were public access and shoreline erosion. These were resolved by a Commission-certified resubdivision for the area as part of a resubmitted LCP on June 7, 1988. Commission effective certification occurred on August 10, 1988.

The Channel Islands Harbor ADC was created on May 18, 1982, and included the entire County-owned Harbor within the City of Oxnard. The major issue was whether the City or the County had planning jurisdiction. This was resolved in the City's favor, and the Commission certified the LCP as resubmitted on December 10, 1986.

The Mandalay Beach ADC was created on May 18, 1982, and included about 100 acres. The issues were public access, shoreline erosion and density of development. The resubmitted LCP was certified on April 21, 1987, and resolved all of these issues.

County of Los Angeles (part)

1. Number of Segments - 4 (for remainder of segments see South Coast Area)
2. Summary Status:

a. Malibu/Santa Monica Mountains

1. The LUP was submitted in December 1982. This LUP involves a large complex geographic area with many complex LCP issues, including access, and the cumulative impact of new development. On March 24, 1983, the Commission found substantial issue with the LUP and denied it. The LUP was certified with suggested modifications on June 13, 1985. The original LUP was resubmitted again and certified with suggested modifications on November 19, 1985. A revised LUP incorporating many of the suggested modifications submitted in October 1986 and certified as submitted (and therefore effectively certified) on December 11, 1986. A portion of this segment was incorporated into the new City of Malibu on March 28, 1991.
2. Submittal date for the zoning portion of the LCP is unknown. A partial implementation program was denied by the Commission as inadequate on July 10, 1990. The Commission awarded three LCP planning grants (1997, 1998, and 2001, totaling \$286,500) to the County for work on a three-phase planning program to develop the Santa Monica Mountains LCP segment. During the grants' terms, the County nearly completed the IP Public Review Draft.
